IN RE REISSUE APPLICATION:

Inventor's Name: CHEN, Joe
Patent No.: 6,507,881
Issue Date: Jan. 14, 2003
Title: METHOD AND SYSTEM FOR PROGRAMMING A
PERIPHERAL FLASH MEMORY VIA AN IDE BUS

**REISSUE APPLICATION DECLARATION AND POWER OF ATTORNEY BY
INVENTOR**

I hereby declare:

My name, residence, mailing address and citizenship are stated below next to my name. I believe I am the original and sole inventor of the subject matter which is described and claimed in U.S. Patent No. 6,507,881, granted on Jan. 14, 2003, for which a reissue patent is sought on the invention entitled METHOD AND SYSTEM FOR PROGRAMMING A PERIPHERAL FLASH MEMORY VIA AN IDE BUS, specification of which is attached hereto.

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I verily believe the original patent to be wholly or partly inoperative or invalid, by reason of the patentee claiming less than the patentee had the right to claim in the patent.

At least one error upon which reissue is based is that claim 1 defines the subject invention too narrowly in that it recites unnecessary step(s) regarding IDE bus activities. The reissue application is a broadening reissue so as to seek claims with scope commensurate with the scope of the specification.

All errors corrected in this reissue application arose without deceptive intention on the part of the applicant.

I acknowledge the duty to disclose information that is material to patentability as defined in 37 CFR § 1.56.

As the named inventor, I hereby appoint the following attorneys to prosecute this application and transact all business in the United States Patent and Trademark Office connected therewith:

Elizabeth Chien-Hale (Reg. No. 44,077)
Ronald Fish (Reg. No. 28,843)

Correspondence Address: Direct all communications about the application to the address associated with:

Customer Number: 33392

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 USC 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.
